EDUCATION

Worcester State University   Worcester, MA
Bachelor of Science in Computer Science, Concentration in Software Development   *Aug. 2022 – May 2026*
- Upsilon Pi Epsilon Member - International Honor Society for the Computing and Information Disciplines

PROJECTS

Magic 8 Ball
- **Technologies**: HTML, CSS, and JavaScript
- **Tools and Environment**: Visual Studio Code
- **Description**:
- **Inspiration**: I was watching an episode of *Friends* and a scene came on when they were using a magic 8 ball. I thought it would be a cool beginner experience to code a magic 8 ball and did exactly that.

Hexadecimal ASCII Translation
- **Technologies**: HTML, CSS and JavaScript
- **Tools and Environment**: React and Visual Studio Code
- **Description**:
- **Inspiration**: In the middle of the movie *The Martian*, there was a scene where Matt Damon's character utilized an ASCII table to translate NASA's message. Being a CS major, I thought this was very cool and wanted to give a try at coding a hex ASCII Translation to English.

Facing 2025 World Series MVP: Yoshinobu Yamamoto
- **Technologies**: HTML, CSS and JavaScript
- **Tools and Environment**: React and Visual Studio Code
- **Description**:
- **Inspiration**:

TECHNICAL SKILLS

Languages: Java, Python, C, SQL (MySQL), JavaScript, HTML/CSS, R
Frameworks: React
Developer Tools: Git, Docker, VS Code, Visual Studio
Libraries: pandas, NumPy,

WORLD LANGUAGES

Languages: English, Proficient Spanish
